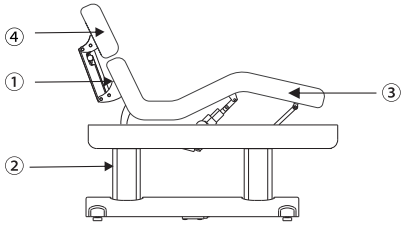
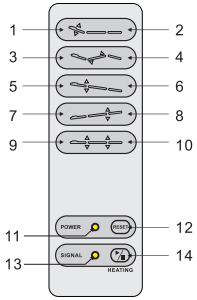
  (As shown in the photo)



① angle adjustment of the backrest
② lifting adjustment
③ angle adjustment of the seat
④ armrest angle adjustment (manual)

6. Operation Instruction

1.Standard Configuration
(Hand Controller)



No.	Description	Operation
1	Backrest moves up	Backrest goes up smoothly by pressing the button.
2	Backrest moves down	Backrest goes down smoothly by pressing the button
3	Footrest moves up	Press the button, footrest will move up, its angle will be reduced to minimum.
4	Footrest moves down	Press the button, footrest will move down, its angle will be moved to maximum.
5	Motor for the positive angle of the whole bed goes up	Inclined angle of the whole bed increases smoothly in positive direction by pressing the button.
6	Motor for the positive angle of the whole bed goes down	Inclined angle of the whole bed decreases smoothly in positive direction by pressing the button.
7	Motor for the negative angel of the whole bed goes up	Inclined angle of the whole bed increases smoothly in negative direction by pressing the button.
8	Motor for the negative angel of the whole bed goes down	Inclined angle of the whole bed decreases smoothly in negative direction by pressing the button.
9	moves up	moves up smoothly by pressing the button
10	moves down	moves down smoothly by pressing the button
11	Power indicator	Hand controller are connected with power supply properly, indicator light is on. Otherwise, it won't light.
12	One-key reset button	Press the button, the height of the bed will automatically reach the lowest position.
13	Indicator light of heating function(Option)	Pressing the button, the light is on, the heating function works; pressing the button again, the light is off, the heating function stops.
14	Heating (Option)	

Notes:

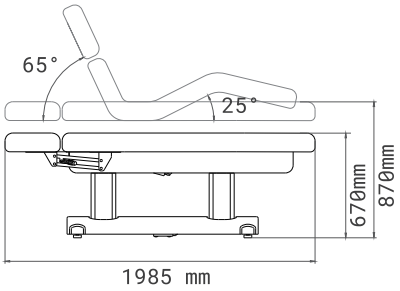
1.The memory position setting is only available for the models with memory function.

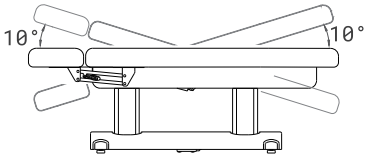
2.The heating function is only available for the models with heating function.

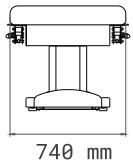
3.Different hand controllers should be chosen according to different configuration.

7. Technical Parameters

Power	AC 100-120V 或 AC 220-240V 或 AC 100-240V,50/60Hz
Maximum Power	300W
Environment Temperature	0°C~+40°C
Relative Humidity	30%~90%
Lifting Rated Load	175kg
Package Size	204×81×72cm







8. Maintenance

1. After every treatment, please only use neutral solution to clear the dust, stains on leather, metal part or other parts. Disinfecting solution like alcohol, acid or alkaline solution are forbidden. This is to prevent the lifetime of the components from being shortened.
